Highlights

Flexible upgrade option
The DISB provides you with a flexible option to upgrade your existing digital hotel TV.

Adds support for entertainment
The DISB adds support for interactive entertainment solutions, like video-on demand, premium TV channels and Internet TV.

SmartPlug Xpress
The SmartPlug Xpress communication port (RJ-12) is compatible with all major premium entertainment services. The protocols enables the TV connection with external decoders, set-top boxes and PC based solutions.

SmartPort Xpress slot
The SmartCard Xpress Slot allows third parties to add new functionality to the TV through application cards.

Remote software upgrading
The TV software that controls hotel-specific features can be upgraded remotely through a certified system provider.

One combined channel list
One integrated channel list for digital and analogue channels. This allows the guest to zapp seemless between Analogue and Digital channels.

SmartClock
SmartClock offers the possibility to indicate the time on-screen when zapping though the channels.

Aesthetic back cover
The aesthetic backcover gives your TV a clean and professional look.

Extending lifetime
You can extend the lifetime of your digital standalone hotel TV by upgrading it to an interactive digital hotel TV.

Cloning of settings
Provides the ability to copy TV settings as well as analog and digital channel programming from one TV set to other TV sets. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.
